A new kind of hybrid with three driving modes

Our latest hybrid is not just a stylish, sleek coupé. It lets you decide what kind of driver you want to be. Select from one of three different driving modes just by changing the dial on the stylish driver's cockpit. Take your pick from Sport for a more exhilarating drive, Econ to activate fuel-saving mode or Normal for every other day.

The CR-Z is the world's first six-speed manual hybrid. It's a coupé that raises heartbeats with its short, sharp, gear changes and responsive handling. Energy generated by the 1.5 litre i-VTEC petrol engine is stored for use by the powerful electric motor to give you near-instant acceleration when you want it.

Stylish. Sleek. Sporty. And sensible. The CR-Z has surprisingly low running costs, with great mpg, strong predicted residual values, low SMR and low VED costs. With CO₂ of 117g/km, drivers will also benefit from BIK tax liability from only £29 a month for a 20% tax payer. All this, and it's Earth friendly too.
